Pan-India Supply

WHO WE ARE

About Us

Since **1990**, K.R. Thermopack Pvt. Ltd. has manufactured high-quality **thermocol (EPS) and corrugated packaging** from a fully developed **3-acre facility** in Industrial Sector 24/25, adjoining NH-19 (formerly NH-2) in Ballabgarh, Faridabad — strategically placed for pan-India dispatch by road and rail.

As an **ISO 9001:2015 certified** company, we pair three-and-a-half decades of moulding expertise with strict, stage-by-stage quality control. Our core strength is **pharmaceutical cold-chain packaging** — with **50+ dedicated aluminium VMC moulds** engineered for vaccines, medicines and diagnostics that must hold constant temperature in transit.

Being **vertically integrated** — backed by a group that produces its own EPS raw material — gives our clients shorter lead times, consistent quality and dependable cost advantages.

Backed by the Group

- ◆ **EPS Resin** — 8,000 MT/month, **Largest in North India** (3 plants)
- ◆ **Rotogravure Printing Machines** — exported globally
- ◆ **PU Foam Mattresses**
- ◆ **Education** — School & Engineering / MBA College
- ◆ **GPPS** — 3rd largest manufacturer in India
- ◆ **PE Foam, Bubble Sheet & Stretch Films**
- ◆ **Synthetic Leather & PVC Stretch Films**

INSIDE OUR PLANT

Manufacturing Infrastructure

Production runs on our own floor in Ballabgarh — a **3-acre facility** housing a multi-machine **EPS moulding line** alongside an in-house corrugation shop. From raw bead and kraft reel to finished, printed pack, every stage is controlled under one roof — giving our clients tighter tolerances, shorter lead times and consistent quality.

Our EPS moulding line — banks of shape-moulding machines feeding finished product to the pack floor

WHAT WE MAKE

Product Portfolio

Thermocol / EPS **MOULDED**

- **EPS Blocks & Sheets** — standard & high-density
- **Cold-Chain Pharma Boxes** — 50+ dedicated moulds
- **Custom Moulded EPS** — shape-to-spec inserts
- **Pipe Sections** — thermal insulation
- **Industrial Protective Inserts** — end caps & cushioning
- **Void Fill & Corner Pads**

Corrugated **PRINTED**

- **Standard Boxes** — 2-ply to multi-ply
- **Custom-Printed Cartons** — branded, multi-colour
- **Rigid & Luxury Gift Boxes** — premium foil finishes
- **Export-Grade Packaging**
- **Partitions, Inserts & Die-Cut Blanks**
- **Heavy-Duty Industrial Boxes**
- **Pharmaceutical Cartons**

Quality Assurance

- ◆ **Incoming material verification** — every lot of EPS bead & kraft checked before it enters production
- ◆ **Pre-dispatch checks** — documented final inspection before every consignment leaves the plant
- ◆ **Stage-wise inspection** — density, dimensions & finish checked at moulding, cutting & conversion
- ◆ **Batch traceability** — records maintained under our ISO 9001:2015 QMS — Cert. No. QMS-K20010, KBS Certification Services (JAS-ANZ accredited)

Sustainability

- ◆ **EPS is 100% recyclable** — and 98% air, using far less raw material than solid plastics
- ◆ **Recycled-content kraft** — corrugated board made substantially from recycled paper
- ◆ **In-house regrind** — process scrap is recovered and reused, keeping waste out of landfill
- ◆ **Right-sized packs** — custom moulds cut material use and transport volume for our clients

Every product is made to customer specification — custom moulds, dimensions, densities and print finishes on request. Client brands shown are manufacturing references; all trademarks remain the property of their respective owners.

OUR CORE STRENGTH

Pharmaceutical Cold-Chain

Precision temperature-maintenance packaging, trusted by India's leading pharmaceutical and diagnostics companies for over 30 years.

- ✓ **50+ aluminium VMC moulds** for vaccine, medicine & diagnostics packaging
- ✓ **Custom EPS inserts** to exact vial, syringe & device dimensions
- ✓ **Rapid prototyping & tooling** for new requirements
- ✓ **Temperature-maintenance boxes** that protect product integrity in transit
- ✓ **Regulatory-grade materials** safe for pharma contact
- ✓ **30+ years** serving demanding pharma names

WHY CLIENTS STAY WITH US

The K.R. Thermopack Difference

01

Three decades, one craft

K.R. Thermopack has done one thing since 1990 — protective packaging, from our own plant in Faridabad. That focus shows in every mould we cut and every carton we ship.

EST. 1990 · 3-ACRE OWNED FACILITY

02

We make our own raw material

Our group runs North India's largest EPS resin operation, so your orders never wait on beads — and quality is controlled from resin right through to the finished box.

8,000 MT/MONTH EPS · GPPS 3RD LARGEST IN INDIA

03

Built for the cold chain

50+ dedicated aluminium moulds engineered to hold temperature in transit — the reason Roche, Sanofi, Abbott and Eli Lilly rely on us to protect what they ship.

50+ VMC MOULDS · 30+ YEARS IN PHARMA

04

Tooling to your exact spec

We cut our own moulds in-house, so we prototype fast and match any vial, syringe or device dimension — no outsourcing, no waiting on a third party.

IN-HOUSE TOOLING · RAPID PROTOTYPING

05

One partner, every format

EPS and corrugated under one roof — trial runs to high-volume contracts — dispatched pan-India from our NH-19 location. 80+ active clients across pharma, cement, automotive, dairy and electronics.

80+ ACTIVE CLIENTS · EPS + CORRUGATED · ISO 9001:2015 AUDITED QMS

A NOTE FROM OUR DIRECTOR

"For more than three decades our promise hasn't changed — protect what our customers ship, on time, every time. When you work with us, you deal directly with the people who run the plant, not a call centre. We'd be glad to earn your trust."
